MULTI FLASHLIGHTS

Models with wide light for professional application, sports and everyday use. Available with white or warm light

1 HEADLAMP

Simple one-hand operation, reliable headmount. The flashlight is easily installed, removed and 180° rotatable in the mount.

2 EVERY DAY CARRY LIGHT

Compact design, convenient side button, special matt anti-abrasive finish without rough knurling. Durable nylon holster (Pro Max, Pro models except Wizard C1 Pro), robust removable steel clip and strong built-in tail magnet.

3 SPORTS FLASHLIGHT

Body made from durable and lightweight aircraft-grade aluminium, improved shock resistance. Multiple variants of installation, optional accessories for mounting on sporting gear.

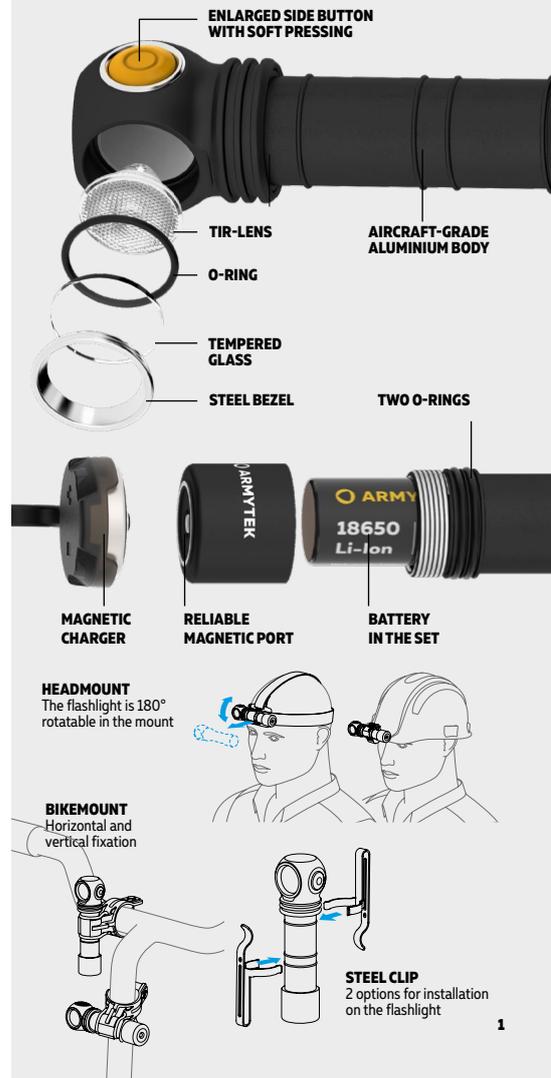

4 LAMP MODE (ELF C2, ELF C1)

Works without batteries directly from a Powerbank or any USB power supply.

5 KEYCHAIN LIGHT (WIZARD C1 PRO, ELF C1)

Compact and lightweight for even more comfortable carry in a pocket, hole for keyring or lanyard in the tailcap.

- **PRO MAX** New generation electronics for even brighter light output
- **PRO MAX** High capacity 21700 Li-Ion 5000 mAh battery, 18650 battery adapter in the set
- **PRO MAX/PRO** Powerful electronics provides constant brightness even at a temperature of -25 °C and not fully charged battery
- **PRO MAX/PRO** Multicolor temperature, battery level and state indication with the ability to turn it off
- **PRO MAX/PRO** Simple operation by default and possibility to switch to advanced type
- High-quality battery and magnetic or USB cable depending on the model are included in the set
- Convenient wide beam of fully upgraded optical system, TIR-lens or smooth reflector (in Wizard C2 Pro Max LR model) are protected from scratches by tempered glass with anti-reflective coating
- Innovative technology allows using any standard 21700 Li-Ion, 18650 Li-Ion or 18350 Li-Ion battery, depending on the model
- Active real-time temperature control to prevent overheating above +58 °C and warning indication of low battery level
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even after submersion at 10 meters depth. Withstands fallings from up to 10 meters

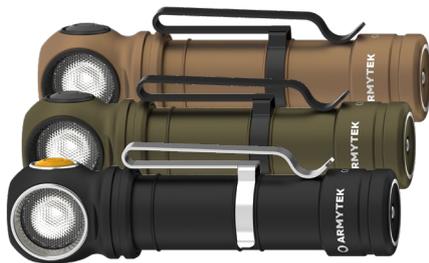

WIZARD MODELS WITH RELIABLE FAST MAGNETIC CHARGER IN THE SET

WIZARD C2 PRO MAX 4000 lm, 114 m

3 in 1 Headlamp, Every Day Carry, Sports

White	6957713003009	F06701C
Warm	6957713003016	F06701W
White (Olive)	6957713004174	F06701CO
White (Sand)	6957713004167	F06701CS

Flagship product in multi flashlight lineup with astonishing brightness of 4000 lumens and wide beam angles 110°.150°. Record runtimes in Main modes.

WIZARD C2 PRO MAX LR 4150 lm, 181 m

3 in 1 Headlamp, Every Day Carry, Sports

White	6957713004280	F06702C
Warm	6957713004297	F06702W

Version of Wizard C2 Pro Max with reflector, record brightness and beam distance in the lineup. Large central spot and comfortable wide spill for use at close and medium distances and for highlighting remote objects.

WIZARD C2 PRO 2500 lm, 131 m

3 in 1 Headlamp, Every Day Carry, Sports

White 6957713003702 F08901UF

Multi flashlight with powerful UV and white light. UV light is for detecting household stains, leaks, fluorescent marks and for finding minerals.

ELF C2 1100 lm, 105 m

4 in 1 Headlamp, Every Day Carry, Sports, Lamp

White 6957713004723 F05103C

Warm 6957713004730 F05103W

Combination of comfortable brightness, simple operation and record 6.5 months runtime for convenient everyday use both indoors and outdoors. Timer for automatic switching-off.

WIZARD C2 WR 1100/230 lm, 98/41 m

3 in 1 Headlamp, Every Day Carry, Sports

 White + red

White 6957713003610 F06901C

Warm 6957713003627 F06901W

Model with impressive beam of red and white light for fishing, camping and hunting. Red light is comfortable for night vision, almost invisible for animals, fish and insects.

WIZARD C2 WG 1100/400 lm, 98/63 m

3 in 1 Headlamp, Every Day Carry, Sports

 White + green

White 6957713004211 F09201C

Warm 6957713004204 F09201W

Model with impressive beam of green and white light. Green light is comfortable for night vision, it provides clarity of lines and detailed display of objects, almost invisible for animals, fish and insects.

ELF C1 1000 lm, 103 m

5 in 1 Headlamp, Every Day Carry, Sports, Lamp, Keychain

White 6957713004709 F05003C

Warm 6957713004716 F05003W

Model with impressive for such a compact body light characteristics and simple operation. Hole for keyring or lanyard in the tailcap. Timer for automatic switching-off.

COMPACT MULTI FLASHLIGHTS

Multiple times brighter than analogs, broad variants of use

1 HEADLAMP (ZIPPY ES, ZIPPY ES WR, CRYSTAL SERIES)

Soft elastic headband. Special design with thought-out optical elements provides convenient beam angle with minimum loss of light for use at a close distance. Rotatable 360° head-mount with magnet (Zippy ES, Zippy ES WR).

2 EVERY DAY CARRY LIGHT

Lightweight and compact body. Possibility to attach to bag, pocket, strap or cap using steel clip. Additional plastic clip as well as mount with magnet for fixation to metal surfaces (Zippy ES, Zippy ES WR).

3 KEYCHAIN LIGHT

Ultrastrong ring for keys or lanyard.

4 LAMP MODE

Works directly from a Powerbank or any USB power supply.

5 SPORTS FLASHLIGHT (CRYSTAL SERIES)

Body made from durable materials. Multiple variants of installation, additional accessories for mounting on sporting gear.

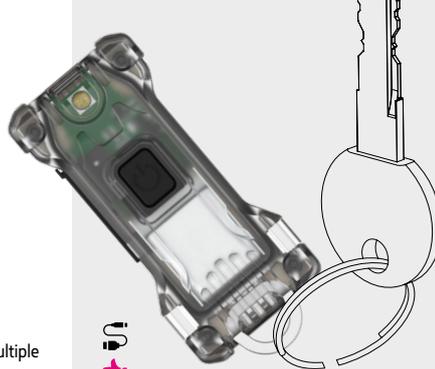

6 BICYCLE BRAKE LIGHT (CRYSTAL PRO)

Built-in 3D accelerometer, activation of additional red LEDs when braking.

7 SIGNAL LIGHT (CRYSTAL SERIES, ZIPPY ES WR)

Different operating modes, omnidirectional light.

- Convenient operation with one button
- Color indication of charging process
- IP67 standard: reliable protection from dust and submersion at 1 meter for 30 minutes. Withstands fallings from up to 10 meters

ZIPPY 160 lm, 15 m

3in1 Keychain, Every Day Carry, Lamp

Grey	6957713002675	F06001G
Blue	6957713002682	F06001B
Green	6957713002699	F06001GR
Yellow	6957713002705	F06001Y
Red	6957713003535	F06001R
Pink	6957713003528	F06001P

Ultrathin and lightweight compact multi flashlight, basic model of the series. Durable ring and removable clip for carrying on keys, in a pocket or on a bag. Fully luminous body, wide beam angle, built-in Li-Pol 100 mAh battery.

6 COLORS TO CHOOSE FROM: Pink Quartz, Red Ruby, Yellow Amber, Green Jade, Blue Sapphire, Grey Onyx

ZIPPY ES 160 lm, 15 m

4in1 Keychain, Every Day Carry, Headlamp, Lamp

Grey	6957713003030	F06101G
Blue	6957713003047	F06101B
Green	6957713003054	F06101GR
Yellow	6957713003061	F06101Y
Red	6957713003542	F06101R

Compact Zippy multi flashlight in extended set configuration. Unique 360° rotatable plastic mount with magnet, clip and headband for multifunctional use.

ZIPPY ES WR 120/30 lm, 12/6 m

5in1 Keychain, Every Day Carry, Headlamp, Lamp, Signal

EVERY DAY CARRY LIGHTS

Bright, compact and lightweight models in a classic form as well as long-throw models with additional light. Prime models are available with white or warm light

1 EVERY DAY CARRY LIGHT

Compact design, convenient side button, special matt anti-abrasive finish without rough knurling. Durable nylon holster, robust removable steel clip, strong built-in tail magnet in Prime series and paracord lanyard.

2 SPORTS FLASHLIGHT (PRIME SERIES)

Body made from durable and lightweight aircraft-grade aluminium, improved shock resistance. Multiple variants of installation, optional accessories for mounting on sporting gear.

3 KEYCHAIN LIGHT (PRIME C1 PRO)

Compact and lightweight for even more comfortable carry in a pocket, hole for keyring or lanyard in the tailcap.

4 SIGNAL LIGHT (BEAR SERIES)

Different brightness modes and Beacon mode of white, red and green light. White silicone cone in the set creates an omnidirectional light for giving signals, regulating traffic or indicating location in emergency situation.

5 CAMPING LIGHT (BEAR SERIES)

The included white silicone cone provides diffused light in a camping tent. Red and green light outputs are comfortable for night vision, almost invisible for animals, fish and insects. Green light also provides clarity of lines and detailed display of objects and is optimal for use in woodland areas. Possibility of tail-stand.

- **PRO MAX** New generation electronics for even brighter light output
- **PRO MAX/PRO** Powerful electronics provides constant brightness even at a temperature of -25 °C and not fully charged battery
- **PRO MAX/PRO/BEAR SERIES** Multicolor temperature, battery level and state indication with the ability to turn it off
- **PRO MAX/PRO (PRIME SERIES)** Simple operation by default and possibility to switch to advanced type
- High-quality battery and magnetic USB cable are included in the set
- Innovative technology allows using any standard 21700 Li-Ion, 18650 Li-Ion or 18350 Li-Ion battery, depending on the model
- Large side button for switching between the modes and slide switch for quick light color selection (Bear series)
- Active real-time temperature control to prevent overheating above +58 °C and warning indication of low battery level
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even after submersion at up to 10 meters depth. Withstands fallings from up to 10 meters

LONG-THROW FLASHLIGHTS WITH ADDITIONAL LIGHT AND MAGNETIC CHARGER IN THE SET

BEAR WRG 1500/130/180 lm, 510/70/70 m

3 in 1 Every Day Carry, Signal, Camping

White + red + green

White 6957713004129 F09901C

Flashlight with long-throw white light as well as with additional red and green outputs. Slide switch for easy light color selection.

CLASSIC FORM FACTOR FLASHLIGHTS, MAGNETIC CHARGER IN THE SET

PRIME C2 PRO MAX 4000 lm, 260 m

White	6957713003931	F08601C
Warm	6957713003948	F08601W

Incredibly powerful flagship product of the series with large central spot, wide side spill and impressive beam distance for such brightness. Record runtimes in Main modes.

PRIME C2 PRO 2400 lm, 123 m

2 in 1	Every Day Carry, Sports

BUCKLER

UPCOMING

BUCKLER M1 700 lm, 105 m

White light

White 6957713003986 F09301C

Ultra-compact flashlight for mounting on a gun with white light and built-in Li-Pol 350 mAh battery. The integrated mount with a sliding rail allows adjusting the position of the flashlight when fixed on any gun.

UPCOMING

BUCKLER M1L 800 lm, 145 m

2 in 1 White light, Laser

White 6957713003993 F09301CRL

Compact 2 in 1 flashlight for mounting on a gun with white light, red laser designator and built-in Li-Pol 350 mAh battery. Slide switch for selecting the operating mode. The integrated mount with a sliding rail allows adjusting the position of the flashlight when fixed on any gun.

UPCOMING

BUCKLER M2L PRO 1300 lm, 210 m

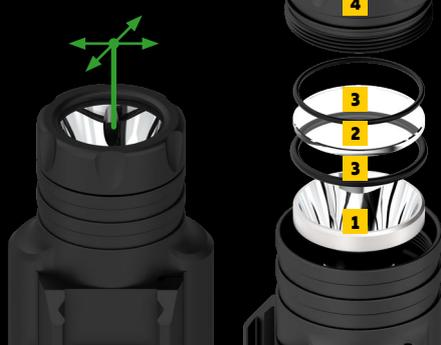

2 in 1 White light, Laser

White 6957713004006 F09401CGL

Long-throw compact 2 in 1 flashlight with white light and green laser designator for mounting on a handgun or a carbine. Built-in Li-Pol 1000 mAh battery. The combination of compactness, brightness of 1300 lm and beam distance of 210 m – one of the best characteristics among the analogs. Compatible with the specially designed remote switch.

Compact flashlights with magnetic charger intended for civilian use. The series includes the models with white light, as well as with additional red or green laser designator. The Buckler flashlights are equipped with an integrated mount that is compatible with all common tactical rails. The thought-out design of the switches provides convenient operation with both hands and quick access to Strobe mode. The capacious built-in battery is charged without removing the flashlight from the gun.

Separate adjustment of the laser designator along two axes for precise alignment of the laser and the aiming point

Special precisely calculated reflector **[1]** for High Intensity LED modification, which provides 1.5 times the light range compared to a usual LED, and tempered glass with anti-reflective coating **[2]** for maximum throw distance for the given dimensions, O-rings **[3]** and reinforced design of the front part **[4]** for additional protection of the optical system

Magnetic charger

Built-in Li-Pol battery can be charged without removing the flashlight from the gun

ROUNDEL

Flashlights powered by CR123A lithium batteries, intended for civilian use and for special forces. The series includes the models with white light, as well as with additional IR light, green, red and IR laser designator. The Roundel flashlights are equipped with an integrated mount that is compatible with all common tactical rails. The thought-out design of the switches provides convenient operation with both hands and quick access to the Strobe mode. The models of the series are compatible with the multifunctional remote switch for maximum comfort of the use on a carbine.

Multifunctional remote switch with the possibility of constant or tactical (while holding the button pressed) light switching

Powered by CR123A lithium batteries

UPCOMING

ROUNDEL C1L 500 lm, 130 m

2 in 1 White light, Laser

Warm 6957713004013 F09501WGL

Ultra-compact 2 in 1 flashlight with white light and green laser designator for mounting on a gun. Works on one CR123A lithium battery. Quick battery replacement without removing the flashlight from the weapon. The TIR-optics provides both comfortable flood light that allows assessing the situation around, and the beam distance required for aimed fire.

UPCOMING

ROUNDEL C2L PRO 1300 lm, 210 m

2 in 1 White light, Laser

White 6957713004037 F09601CGL

Long-throw compact 2 in 1 flashlight with white light and green laser designator for mounting on a handgun or a carbine. Works on two CR123A lithium batteries. The combination of compactness, brightness of 1300 lm and beam distance of 210 m – one of the best characteristics among the analogs. Compatible with the specially designed remote switch.

UPCOMING

ROUNDEL C2 PRO 1300 lm, 210 m

White light

White 6957713004020 F09601C

Long-throw compact flashlight with white light for mounting on a handgun or a carbine. Works on two CR123A lithium batteries. The combination of compactness, brightness of 1300 lm and beam distance of 210 m – one of the best characteristics among the analogs. Compatible with the specially designed remote switch.

UPCOMING

ROUNDEL C2IRL PRO 1300 lm, 210 m

2 in 1 White light, IR laser

White 6957713004044 F09601CIRL

Long-throw compact 2 in 1 flashlight with white light and infrared laser designator for mounting on a handgun or a carbine. Works on two CR123A lithium batteries. The combination of compactness, brightness of 1300 lm and beam distance of 210 m – one of the best characteristics among the analogs. Compatible with the specially designed remote switch.

ROUNDEL C2 COMBO 800 lm, 250 m

4 in 1 White light, Laser, IR light, IR laser

White 6957713004051 F09701CC

Universal 4 in 1 flashlight with white light, infrared light, as well as red and infrared laser designator for mounting on a handgun or a carbine. Works on two CR123A lithium batteries. Specially designed for use by special forces units when solving tactical tasks. Switching lever for selecting the operating mode. Compatible with the specially designed remote switch.

Special precisely calculated reflector **[1]** for white and infrared light, and tempered glass with anti-reflective coating **[2]** for maximum throw distance for the given dimensions, O-ring **[3]** and bezel **[4]** for additional protection of the optical system

Additional reflectors on IR LEDs create the correct geometry of the spot of light

PARMA

Flashlights powered by 18650 Li-Ion batteries, as well as CR123A lithium batteries. Intended for use by special forces and for hunting. The series includes the models with white light and additional IR light. The Parma flashlights are equipped with an integrated mount compatible with Picatinny/Weaver tactical rails. Large button for easy pressing even with tactical gloves, switching lever for selecting the type of light or blocking from accidental activation, convenient access to the Strobe mode. Quick battery replacement without removing the flashlight from the weapon. The models of the series are compatible with the multifunctional remote switch for maximum comfort of the use on a carbine. The form factor and the remote switch in the set allow mounting and conveniently using the flashlight on various carbine handguard locations.

PARMA C2IR PRO 1250 lm, 320 m

2 in 1 White light, IR light

White 6957713004082 F09804CIR

2 in 1 flashlight with white and infrared light. Works on one rechargeable 18650 Li-Ion battery or two CR123A lithium batteries. Additional reflectors on IR LEDs create the correct geometry of the spot of light.

PARMA C2 PRO 1500 lm, 350 m

White light

White 6957713004075 F09804C

Flashlight with white light, basic model of the Parma series. Powered by a single rechargeable 18650 Li-Ion battery or two CR123A lithium batteries.

Quick battery replacement without removing the flashlight from the weapon

Multifunctional remote switch with the possibility of constant or tactical (while holding the button pressed) light switching

SEARCHLIGHTS

Extreme beam distance and maximum reliability.
Available with white or warm light

1 SEARCHLIGHT

Large and deep reflector for maximum throw distance, extended runtimes, practical plastic case.

2 TACTICAL LIGHT

Withstands any recoil due to installation of the driver inside a reinforced capsule filled with protective compound. Compatibility with tactical accessories.

- **PRO MAX** New generation electronics for even brighter light output. High capacity 21700 Li-Ion 5000 mAh battery
- **PRO MAX** Additional side button for comfortable one-hand mode changing
- **PRO MAX** Noiseless two-phase electronic button with two levels of pressing
- **PRO** Additional compact body 1 x 18650, injury-safe ergonomic silicone grip and steel clip for even more convenient use
- Adjustable operation for quick access to the required modes
- Two springs for efficient performance and better battery and driver protection
- Powerful electronics provides constant brightness even at a temperature of -40 °C and not fully charged battery
- Non-flat button allows easy switching on of the flashlight during tactical hold
- Innovative technology allows using any standard 21700 Li-Ion or 18650 Li-Ion battery, depending on the model
- Solid body made from aircraft-grade aluminium, special matt anti-abrasive finish without rough knurling
- Active real-time temperature control to prevent overheating and warning indication of low battery level
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even after submersion at 10 meters depth. Withstands fallings from the 10th floor
- Size-adjustable wrist lanyard and heavy-duty nylon holster in the set

2 BUTTONS  

UPCOMING

BARRACUDA PRO MAX 3000 lm, 1000 m

2 in 1 Searchlight, Tactical

White	6957713003399	F10001C
Warm	6957713003405	F10001W

Flagship product of the series with the most long-throw direct beam of light. Extensively thought-out ergonomics and set configuration. Best solution for searching and highlighting individual remote objects.

BARRACUDA PRO 1500 lm, 800 m

2 in 1 Searchlight, Tactical

White	6957713001760	F03302SC
Warm	6957713001777	F03302SW

The model that works on two 18650 Li-Ion batteries. Record 1 year and 5 months runtime in Firefly mode on a single charge of the batteries.

AUXILIARY HIGH BEAM DRIVING LIGHTS

Impressive beam distance, installation on a vehicle

DRUID L90

UPCOMING

White 6957713003979 H00101C

Auxiliary high beam driving light for mounting on a car, specialized vehicle or a boat. Provides intense, long-range and even light output. Operates from any on-board circuit in the voltage range of 9-32V.

1 Eight LEDs are protected from external influences by impact-resistant optical polycarbonate

2 Separate reflectors in combination with additional lenses made of impact-resistant optical plastics for each LED produce the most long-throw and even beam of light possible

5000K color temperature provides a close-to-sunlight shade of light, which reduces eye fatigue

3 Durable aluminium frame, special powder coating to protect against corrosion, chips and scratches

4 Multiple cooling fins for better heat dissipation, electronic temperature control system for protection against overheating above +58 °C

5 Anti-fogging air valve to prevent moisture from the air from entering the driving light

6 The auxiliary driving light comes with a preassembled cable with a two-pin waterproof DEUTSCH DT connector, which allows for simple connection to a free mating connector in the on-board circuit. The set also includes additional cable with DEUTSCH DT connector that can be soldered into the vehicle's on-board circuit if necessary

Protection against the operating voltage fluctuations in the on-board circuit and polarity reversal

Total protection from water, dirt and dust according to IP68 standard. Stable operation at high and low ambient temperatures from -40 °C to +40 °C

Stainless steel hardware and two types of brackets for maximum ease of installation are included. Tilt adjustment in the bracket is possible

SPECIFICATIONS

Light output	7500 lm
Beam distance	946 m
Power	94 W
Power source	9-32V DC
Height	180 mm
Width	164.5 mm
Depth	97 mm
Weight	1800 g
Ingress Protection	IP68
Submersion	2 m for 5 h
Operating temp.	-40. +40 °C

CHARGERS

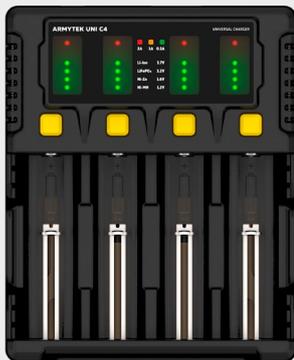

Powerful and universal smart battery chargers

UNIVERSAL CHARGERS

Universal chargers with built-in power supply and car adapter in the set. Simultaneously charge 4 batteries of different types (2 batteries for Uni C2) with up to 2A current. Support more than 50 types of power sources.

- Multicolor LED indication with 5 LEDs per channel
- Intelligent automatic detection of battery type, charge level and optimal current

- Supports Li-Ion, Ni-MH, Ni-Cd, LiFePO₄ and Ni-Zn batteries
- Quick charge with up to 2A current
- Option of manual selection of settings with one button per channel
- Always visible indication of charging current and battery charge level per channel (without touching the button)
- Overdischarged and sleeping battery activation function

UNI C4

UNI C2

Uni C4 Plug A	6957713002309	A04501A
Uni C4 Plug C	6957713002309	A04501C

Uni C2 Plug A	6957713002286	A02401A
Uni C2 Plug C	6957713002286	A02401C

2 in 1

PORTABLE CHARGERS + POWERBANK

2 in 1 charging devices with Powerbank function. USB cable is in the set. Used with any car or wall adapter with USB output. Charge batteries of different types with up to 2A charging current depending on the model. Powerbank function supports charging of iPhone and iPad.

1 CHARGER

Intelligent automatic detection of charge level and optimal current. Quick charge of Li-Ion batteries with up to 2A current. Charging of Ni-MH with up to 1A current with precise charge algorithm to extend battery lifespan.

2 POWERBANK

Charges a device with up to 2.5A current, compatible with iPhone and iPad.

HANDY C1 VE

HANDY C1 PRO

Handy C1 VE	6957713002972	A03801
Handy C1 Pro	6957713002354	A02801

ACCESSORIES

HARD HAT MOUNTS

AHM-01	6957713003788	A02502
AHM-02	6957713002408	A02501
AHM-03	6957713002996	A04801

AHM-01 – a mount for attaching a flashlight to the side of a hard hat or helmet. Designed to fit helmets with a special 6 mm diameter slot, it is easy to install and holds the flashlight securely in place. Compatible with flashlights with a body diameter of 21-26 mm and a maximum head diameter of 41 mm (tactical flashlights, Prime, Partner series).

AHM-02 – a universal mount designed to install a flashlight on a construction hard hat peak with up to 8 mm height. Compatible with Wizard and Elf series flashlights with 20.4 mm body diameter.

AHM-03 – a mount for installing a flashlight on the front of a helmet. Designed for helmets with a special slot with a minimum length of 21 mm, it

AHM-04	6957713004525	A05101
AHM-05	6957713004532	A05201

is easy to install and holds the flashlight securely in place. Compatible with Wizard and Elf series flashlights with 20.4 mm body diameter.

AHM-04 – a universal mount designed to install a flashlight on a construction hard hat peak with up to 6 mm height and at least 15 mm length. Compatible with Wizard and Elf series flashlights with 20.4-23.6 mm body diameter (except Wizard C1 Pro, Elf C1).

AHM-05 – a mount for installing a flashlight on a helmet with a pre-installed NVG Shroud. Compatible with Wizard and Elf series flashlights with 20.4 mm body diameter (except Wizard C1 Pro, Elf C1).

WEAPON MOUNTS

AWM-01	6957713000954	A00901
AWM-02	6957713000961	A00902
AWM-03	6957713003818	A01301

AWM-01 AND AWM-02 – universal weapon mounts for fixing the flashlight to weapons of various types. Side mounting, top mounting and mounting on a double-barreled shotgun are possible.

AWM-03 – magnetic weapon mount compatible with 8-30 mm diameter weapons. Provides reliable fixation of a flashlight with easy one-motion attachment and removal. Made from lightweight and robust materials. Holds up to 8 kg due to extra strong dual magnets.

AWM-04 – a compact universal model for fixing the flashlight to a weapon, as well as to other equipment with pre-installed Weaver rail. Reliable fixation to the rail, quick one-motion attachment and removal. Compatible with the ARC rails mounting system for helmets.

AWM-04	6957713003887	A00904
AWM-05	6957713003894	A00905
AWM-06	6957713003900	A00906

AWM-05 – universal mount that allows for the flashlight installation on any Picatinny or Weaver rail. For the use of additional accessories, the mount is equipped with a built-in Picatinny rail. Two pieces in the set provide even more reliable fixation.

AWM-06 – a universal mount for installation on a Picatinny or Weaver rail. Multiple fixing options, convenient side mount. Reinforced construction for secure attachment. Close to the barrel flashlight placement, possibility to change the mode without using a remote switch. Compatible with the ARC rails mounting system for helmets.

BIKE MOUNT

ABM-01 6957713002880 A04301

Compatible with Wizard, Elf and Prime series flashlights. Made from robust and lightweight materials. Quick-release, easily attached to a bicycle handlebar, strongly holds a flashlight in place.

PROTECTIVE COVER FOR FLASHLIGHT'S TAILCAP

ATC-01 6957713004549 A06201

Silicone cover ATC-01 is specially designed for use with Wizard, Elf and Prime series flashlights (except Pro Max models). It protects the magnetic charging port of the flashlight from metal filings and provides easy removal of the clung metal objects from the tailcap. Perfect solution for flashlights used in industrial facilities or workshops.

REMOTE SWITCHES

MRS-01 6957713003504 A04901

MRS-01 – a series of magnetic remote switches for momentary on (only when the button is pressed) and for constant light. Easy one-motion connection, no need to unscrew the tailcap. The series includes models for Armytek tactical flashlights with magnetic charger as well as models for Partner series flashlights.

ARS-01 6957713000879 A00801

ARS-01 coil cord 6957713003825 A00802

ARS-01 – models with straight or coil cord for momentary on (only when the button is pressed). Compatible with all Armytek flashlights with tactical button, except for the models powered by 21700 Li-Ion battery.

POWER CHARGER

APC-01 6957713004488 A06101

APC-01 has two USB-A sockets. It is designed for charging devices with voltage consumption of 5V and current consumption of up to 2.5A. It operates from a power network of 100-240V (AC), 50/60Hz.

BATTERIES

Branded rechargeable batteries 21700 Li-Ion, 18650 Li-Ion and 18350 Li-Ion based on components by world's leading manufacturers. Options with and without protection circuit board, battery capacity from 900 mAh to 5000 mAh. Non-rechargeable CR123A lithium batteries are also available.

21700 Li-Ion battery 5000 mAh/without PCB/rechargeable
6957713003870 A03601

18650 Li-Ion battery 3500 mAh/with PCB/rechargeable

18350 Li-Ion battery 900 mAh/without PCB/rechargeable
6957713002507 A03401

CR123A lithium battery 1600 mAh/PTC protection/non-rechargeable
6957713002538 A00102

COLOR FILTERS

Blue, red, green and white filters are used with tactical flashlights as well as with Prime and Partner series models to broaden the flashlights' functionality. Blue light is for working with maps and navigation devices. Red light is comfortable for night vision. Green light is optimal for application in woodland areas. White filter transforms narrow beam into smoother wider output for performing tasks at close range.

AF-24

Red 6957713002798 A005FPP
White 6957713002828 A036FPP

Blue 6957713000824 A026FPV

TRAFFIC WANDS

ATW-01 is a universal accessory that transforms a hand-held flashlight into a special-purpose tool for giving signals or into a camping light. Fully luminous cone provides diffused flood light. The model is available in white and in orange.

ATW-01

Orange 6957713004228 A0601W
White 6957713003719 A0601O

WHITE LIGHT

- efficiently highlights individual objects
- has greater blinding effect
- light output is 7% more
- beam distance is 3% more

WARM LIGHT

- more efficient in rain and fog
- better conveys the natural color of objects
- reduces eye fatigue during prolonged use
